

Expanding LPFM service that will allow new LPFM stations to have priority over current FM translator service will leave me without the signal for KLOVE 100.1 in San Diego. This is the ONLY station that I listen to because it is the ONLY station that plays music that glorifies God.

If this station were to be taken off the air, my rights as a United States citizen will have been taken away. I

have the right to listen to music and djs that don't promote sexual promiscuity, nonreligious views and advertisements aimed at gaining material possessions. The signal for KLOVE is too weak as it is and there are many areas in San Diego where I cannot get the signal. We need to get a stronger signal for this station not weaker ones. The music that KLOVE plays is encouraging and uplifting and creates a sense of harmony in a world of strife and confusion. More kids need to be able to hear this station's message because kids are under attack and are under more stress now than any baby boomer was at that age. My community needs to hear the music of KLOVE playing from my car and home as an alternative to the gangsta rap and sexually explicit stuff that "popular" radio stations play. The communities I work and play in have many people who also appreciate KLOVE and the messages that they share.
